INTRODUCING THE **MAXECO PRO**

NEW MAXECO | 8131
SOLE: GLADIUS SOLE | SIZE: 3-13

**NEW
MEMORY FOAM
INSOLE**

The legendary Maxeco boot has made a name for itself in a number of sectors due to its ability to move seamlessly between varying terrains. The padded collar and padded bellows tongue provide comfort, while the extended size range enables procurement to easily cover the size curve of their workforce. Available with or without a steel toe cap, with the added choice of a steel midsole, the Maxeco boot has become the go-to boot of choice in the presence of general working hazards.

FEATURES OF THE NEW MAXECO PRO

UPPER

- Full grain genuine leather upper 1.8 – 2.0mm provides added durability, strength and comfort.
- PlushShield additional padding in the collar and bellows tongue ensures superior ankle support, comfort and air-flow.
- Bellows tongue to prevent debris from entering the boot.
- Extra-wide steel toecap for impact resistance and comfort with 200 J impact protection against falling objects.
- Cambrill laminated lining on collar and vamp.
- Non-corrosive brass D-rings for secure and quick lacing.
- 100cm round lace with central core.

SOLE UNIT

- Gladius sole unit with wider fit for comfort, aggressive cleats for improved grip and slip resistance and transition bridge for stability.
- PU Dual density can withstand temperatures of up to 95°C.
- Increased comfort with improved ergonomics and wider fit with larger contact area.
- The midsole is made from a flexible low density polyurethane with a shore hardness of 45 – 55.
- The outer sole is made from a high durability polyurethane with a shore hardness of 55 – 70.
- Reflective dome for heightened visibility in low light conditions.

INSOLE

- LM-Cloud footbed with anti-microbial treated memory foam and birds-eye lining for exceptional cushioning and ventilation keeping feet comfortable, dry and odour-free throughout the day.
- Memory foam excels in absorbing shocks and distributing impact energy evenly, thereby reducing the strain on your feet and joints and offering personalized cushioning that adapts to your unique anatomy. This enhanced cushioning significantly reduces pressure points, ensuring comfort during prolonged periods of wear.
- Memory foam has breathable properties that aid in temperature regulation, thereby allows for air circulation around the feet, preventing overheating and moisture buildup.
- Anti-microbial treatment keeping feet feeling fresh and hygienic.
