

PVC Mist Cooling System

Enjoy the outdoors again with the Orbit® Performance 1.27c m (½in) PVC Mist Cooling System. It is the perfect rigid cooling solution for home patios and outdoor recreational areas. It also works equally well for animal shelters and dog runs while reducing surrounding temperature up to 20 degrees. This kit includes everything needed to easily assemble 3.5 m of linear mist cooling with no special tools needed. The system can be expanded up to 76 m with sufficient available water pressure. The Mist Cooling System is for outdoor use with cold water only. Do not use with a booster pump

- • 3.5m of linear mist cooling (7.3 m² of mist area)
- • Expandable up to 125 nozzles with appropriate pressure
- • Reduces temperature up to 20 degrees
- • Connects to a standard outdoor faucet
- • Minimal water use of 1.89 litres of water per hour per nozzle
- • For outdoor use with cold water only

- Includes:
