

# 6 mm Outdoor Misting System

The Portable Mist Cooling Kit provides relief from the heat wherever you need it. To experience the benefit of mist cooling, simply attach the convenient hanging snap clips to an umbrella, awning, fence, or other structure after connecting to a standard garden hose.

- When connected, the preassembled flexible tubing creates 3.7 m (12 ft) of linear mist cooling = 7.3 m<sup>2</sup> (24 ft<sup>2</sup>) of mist area
- The Portable Mist Cooling Kit can install wherever needed
- This water-efficient system requires minimal water use of 1.8 litres (1/2 gallon) of water per hour per nozzle
- Connects to a standard outdoor hose tap

**Includes:**

Preassembled 6mm (1/4in) Flexible Tubing:  
 2.4 m (8ft) of feed line connected to 3.7 m (12 ft) of mist line = 6 m (20 ft) total  
 (6) Brass & stainless-steel mist nozzles  
 (1) hose washer  
 (5) Hanging snap clips
