

Battery-Operated Sprinkler Controller With In-Line Valve

Ideal for remote locations, the Battery-Operated Sprinkler Timer with In-line Valve is perfect for applications where no power exists. Removable, waterproof LCD timer, with Easy-Set Logic™ programming, makes for quick and easy installation.

- Two Automatic Programs with 8 start times
- Manual watering capable with rain delay option
- Expandable up to 4 valves with purchase of additional solenoids and valves
- Jar-top valve for easy maintenance
