TECHNICAL DATA SHEET

Product Name: PowerBond Max Strength Multipurpose Double-Sided Tape

Product Type: Reusable Gel Tape

Size: 2MM x 3CM x 1.5M

Temperature Resistance: -16°C to 120°C

Max Strength: Supports up to 2Kg-20Kg on smooth surfaces (depending on the amount of tape used)

Colour: Transparent

Material: Nano gel, High-quality, Non-Toxic & Safe, Easy to Use

FEATURES:

- Adheres to multiple surfaces
- Leaves no damage or residue upon removal
- Reusable without loss of adhesive strength (Wash under clear water, dry. Adhesion restored.)
- Transparent for a discreet appearance
- User-friendly and easy to apply
- Resistant to a wide range of temperatures

APPLICATIONS:

- Picture frames
- Canvases
- Trunking
- Soap holders
- License plates
- And many more household and industrial uses

INSTRUCTIONS:

1. Ensure the surface is dry, clean, and free of dust and oil.
2. Cut the tape to the desired size.
3. Peel off the protective film.
4. Stick the tape to the surface and apply even pressure.
5. For maximum strength, use the recommended amount of tape based on weight and surface area.

CAUTIONS:

1. Not recommended for rough or uneven surfaces.

STORAGE:

Store in a cool, dry place away from direct sunlight.

DISPOSAL:

Dispose of as non-hazardous waste.

Note: All technical data stated above are based on results from our laboratory tests. Actual results may vary depending on the surface and application.
