

ROUND BALE NETWRAP

HIGH TENSILE STRENGTH HDPE

UV-STABILISED

1.23m Roll Width | 3 600m Roll Length

RAM Bale Netwrap is one of the best solutions for perfect round bale wraps (2-3 turns to make it a perfect bale). It provides you with full, consistent and uniform bale coverage while achieving a fast baling process. Our net is suitable for all crops (hay, straw, silage) under all weather conditions.

RAM Bale Netwrap is made of UV Stabilized HDPE of highest quality providing maximum tensile strength and highest resistance to tearing.

The product is customized in order to fit and satisfy the needs of individual customers.

Product strengths include:

- Guaranteed length of 3600m (5% positive tolerance included)
- Suitable for all crops under all conditions
- Good weather protection
- 2 - 3 turns to make it a perfect bale
- Red end warning on the last 50m

Manufactured for:

S SCAW METALS
GROUP

Fibre Products
